out parents, as in milk crust, better and sale rheum,— all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Scap, Ointment and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures, blood purifiers and humour remedies of the civilized world.

Bathe the affected parts with het water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cutiele. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, take the Cuticura Resolvent Pilis, to cool and cleanse the blood. This complete treatment, costing but one dollar, aflords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly lumours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all other remedies and the best physicians fall.
